

## Gimbels' Advertising Sets World Record

### How To Succeed In Stamp Business

Rush of work and lack of adequate help have been the greatest handicap for publication in the past year. We are getting along now to a point where this fault will be remedied soon after the first of the year.

It is due to this that we overlooked some very interesting advice in a recent letter from Mr. Charles B. Charnatz, of Royal Oak, Mich.

You should remember, if you collect Air Mail stamps that Mr. Charnatz had a full page of his splendid offers in our issue of the 15th of November.

Mr. Charnatz advised us that advertisement was to celebrate the start of his third year as a dealer in Air Mail stamps. We can look back two years and would have a difficult time in picking out another dealer who has made the success that Mr. Charnatz has made in that brief time. We do know of others of the newcomers who use space in our columns who are making the grade.

Perhaps a reprint of some of the statements from the latter from Mr. Charnatz would be the best way to tell of his success and best yet, he very kindly tells you who are striving in the same direction, the secret of that success and after reading it, we can quite agree with him, that his rule is the sound and best rule.

This ad starts my 3rd year as a dealer. Sales have climbed month after month, and over 2,000 customers seem to think I'm regular sort of an egg—on account of maybe I like to give a bit more than is bargained for. Many of my customers have become good friends, and we are still able to personalize our service. In a recent issue of Philatelic Trends, published by George Herzog—who by the way, is a swell egg himself—there appeared the following: "About 500 persons go into the stamp business every year. Only about 20 of these last thru their first year, only 10 continue for two years or more, and only three of the original 500 really make a success of it." I think I can sum up the answer for the three who succeed—an honest and sincere desire on the dealers part to give unselfishly—even if it sometimes hurts. That word GIVE—is the keystone—and I don't mean premiums either—but a GIVE attitude when it comes to going out of ones way to perform a little extra service, and hundreds of other little GIVES—that one always appreciates GETTING. Honestly, George, my files are chock full of friendly pleasant letters that makes one glow all over. There isn't a single "gripe" that hasn't been turned into a friend—and if I have any dissatisfied customers—they are keeping it a secret—on account of they haven't told me about it.

### New Texas Stamp Coming

Postmaster General Robert E. Hannegan announced today the issuance of a special postage stamp commemorating the one-hundredth anniversary of the admission of Texas to statehood. The stamp will be of the 3-cent denomination and will be placed on first-day sale at Austin on December 29, 1945. The design comprises the American flag with a ray shining from the twenty-eighth star to the single star of the Texas State flag. On the left side in a vertical panel is the word "Texas" in white face Gothic on a shaded background. The wording "United States Postage" appears in a panel across the bottom of the stamp in white face Gothic on a dark background. To the left of the center, above the bottom panel, there appears in dark Gothic lettering "Statehood" and the dates "1845-1945" in two lines. In the upper right corner is the denomination designation "3c" in dark Gothic. The color of the new stamp will be announced later.

### Texas Boy Pictured On The Navy Stamp

The Pampa, Texas, man, whose picture appears on the new U. S. Navy three-cent stamp, is Nathan L. Beckwith, son of Mr. and Mrs. Russell Beckwith of Borger, Texas.

Beckwith is the top center man in a group of 12 sailors' pictures on the stamp. Mr. and Mrs. Beckwith have an enlarged picture of the stamp which shows the features of their son clearly. He didn't know his picture was on the stamp until his parents wrote him about it at San Pedro, where he is stationed. The seaman wrote that some pictures of him and his friends were taken some time ago, but he didn't know why.

A seaman second class, Beckwith was graduated from Borger high school last spring and immediately went into the navy. He attended Pampa high school until he was a junior

### Coast Guard Stamp Is Fourth Of Service Issue

Our thanks to Cachet Craft Cover service and others who failed to enclose cards for copies of the new Coast Guard stamp on first day covers.

Perhaps the most unique of the lot are two covers from Mr. Lawrence E. Hammen, of Canton, Ohio, who found the stamps on sale at his post office on November 9, the day before the sale at New York. Mr. Hammen sends us a cover postmarked on the 9th and another on the 10th, both from Canton, thus making a pair of attractive covers.

Next to the Iwo Jima stamp this is by far the best of the four service group stamps thus far issued. The Iwo Jima was a natural, taken from a historic photo and thus easy to copy by making it true to the picture. The army stamp, supposedly a photo, has had other things, notably the planes, added to it, but its fault is with trying to picture so much on so little. This design too, was picked by a man who probably took no thought of the reduction of a large photo to a miniature stamp.

The navy stamp is the poorest of all of these issues and even after having handled many of them, one must look close to tell top from bottom and at a distance of a couple feet the stamp looks as well upside down as right side up, in fact it looks like ---- either way.

The Coast Guard stamp was designed, so we are told, by a man in the service, thus we get an action picture, that is a true memorial to these gallant men. The color is in the same green as used on the 1c Roosevelt issue and makes a pleasing appearance.

This is the fourth of the promised service issues. The merchant Marine stamp is promised early in 1946.

### Philatelic History Is Made With Publication Of Largest Volume Of Paid Stamp Advertising Ever Published

A long distance telephone call on November 8 was the start of this great project and the beginning of many days of hustle and hard work in the office of Linn's Weekly Stamp News in Sidney, Ohio.

It has been an annual custom for Mr. Jacques Minkus, the manager of the great Gimbel's Stamp Department in the Gimbel Department store at the corner of 33rd street and Broadway, in New York City, to issue an annual holiday list of stamps offered in this store. This list was merely an enlarged edition of their monthly publication, Gimbel's Stamp News, which was a 6x9 size

### Chicago Phil. Society College Of Philately

The College of Philately, sponsored by the Chicago Philatelic Society is presenting an advanced course in stamp collecting beginning January 8, 1946, and continuing every Tuesday night throughout January and February. These eight lectures are being given at the Hotel LaSalle in downtown Chicago.

Conceiving as a runner up to the two previous colleges, wherein philately from the beginner viewpoint was presented, the new advanced course offers the serious minded student an insight into the "inner santum" of specialized and advanced philately. Every phrase that confronts the ambitious student is explained and elaborated upon. Such subjects as counterfeit detection, exhibition layout and writeup, philatelic literature usage are but a portion of the coverage of the advanced course.

Specialists in their respective fields, the faculty of the College of Philately reads like a veritable "Who's Who" in philately. Names that are known wherever stamps are collected. Each one was chosen for his advanced and recognized authority on the subject assigned to him and on several lectures as many as three experts work together in presenting separate phases of the same lecture.

Again being introduced is the famous workshop of the course at which problems presented by the lecturer are worked out in detail by the student body. This gives anyone not quite grasping the idea presented an opportunity to personally work it out under our expert supervision and have any errors in judgement, or procedure pointed out and explained.

While the course will be presented to the attending student body by means of lectures, Balopticon projection, workshops, etc., which makes the visual presentation important, it is planned to make available the entire course, condensing every idea as presented as nearly as it is possible to put into writing.

The cost of an attendance membership is \$3.00, those living out of town can get the lectures in booklet form for \$1.00 each. For complete particulars write to the College of Philately, Walter G. Strait, Director, Fox River Grove, Illinois.

### FIRST CLASS MAIL

In our editorial of November 8, we spoke of first class mail matter and in a hurried preparation of the copy did not clearly specify some points. Mr. George Hahn, of Cleveland, calls our attention to the fact that an original manuscript, when first mailed to a publisher, is classed as first class mail. This same manuscript may be returned by a publisher with printed proofs of the copy and it becomes third class mail under such conditions.

magazine varying in size from 16 to 24 or 32 pages. The annual holiday edition for last year being a monster size of 128 pages.

Mr. Minkus had been planning the 1945 issue for some weeks past. He had visions of making a book that would run anywhere from 160 to 192 pages. Copy was prepared, cuts were made, work was actually started in the printing plant in New York City, then like an Atomic Bomb—a strike was called. The job was dead in so far as getting it out of the printing plant was concerned and all the well laid plans of Mr. Minkus seemed to have gone astray.

It was then that he called the office of Linn's Weekly Stamp News, at Sidney, Ohio. Mr. Minkus explained the situation—could we offer any suggestions—could we help—could we DO THE JOB?

To do the job in the same style as it had been done in the past was a task that would tax any large printing plant, even if everything ran smoothly, which has not been the case since the war, as any printer knows.

We told Mr. Minkus, however, that we could do him a tabloid production, that is a job in the same style and format as our weekly paper, for this is a newspaper plant here, with a job department in conjunction, but the big things are done on the rotary presses.

When we explained what we could offer, Mr. Minkus grasped at the straw we held out to him for where else could he have got the help and the cooperation that we have been able to give. The work here is under the eye of an experienced stamp man, the manager of the printing plant, Mr. Cecil Watkins is a bear for work and takes as much pride and interest in a job of this sort as does the man who buys it.

Could we get it out? Yes, we did get it out. We printed and mailed for Gimbel's Stamp Department, 18,000 copies of a 36 page tabloid, filled solely with the

**GIMBEL'S ADVERTISING SETS WORLD RECORD**

(Continued from page 1)

thousands of offers that this big stamp department sends to its long list of customers. In addition to that, Mr. Minkus ordered the entire 36 pages to be run as a paid advertisement in the November 29 issue of Linn's Weekly Stamp News and that means another 19,000 copies will be mailed to the readers of Linn's Weekly in all parts of the world and this should be sufficient to make the Gimbel mailing list add many new names of new customers for their 1946 Stamp News.

Today, November 21, as I write this article, the final page proofs have been mailed from New York to Sidney. They should be in our office on Thanksgiving Day, which is a holiday in the plant.

We tackle the finishing touches on this job Friday, we will start mailing the Gimbel tabloid the first of next week. To do this we will have to make three complete sets of stereotype plates to meet the changes in the circular for Gimbels, since a portion of these are for the Philadelphia store. Another complete set of plates must be made for printing the paper as these pages must all carry the name of our paper and a date line.

Originally, the plates for this big job were made from copper, fine quality halftones for slick paper printing. A complete set of new plates suitable for newspaper stock was made. At the finish, it was found that a few of the original copper plates would be needed to produce the complete layout and thus a few plates of finer screen have been included.

Never before in the history of the Philatelic Press has there been such a large volume of paid advertising in any single issue of any Philatelic Publication. In fact, we doubt if there has ever before been a single stamp publication that covered such volume of space as does this issue of the Weekly which might well be kept as a Philatelic Souvenir.

With the 36 pages of Gimbel's advertising we add eight pages of our regular issue. We made every effort to keep this down to eight pages this week to help give us time for other matters. Yet we have here a 44 page paper which contains the largest volume of paid advertising for stamps, ever printed in a stamp publication. Counting the Gimbel advertising of 36 solid pages of 80 column inches per page, we find a total of 2880 column inches. Add to this an estimated 420 column inches of other advertising and we have a net total of 3300 column inches of paid advertising.

As a whole, the paper contains 44 pages each of 80 column inches including both advertising and reading matter, this is therefore 3520 column inches of Philatelic matter in a single issue of a stamp collectors paper.

As a comparison with the largest of the current stamp publications, we might state that this issue is fully three and one half times as large as the biggest of the current American stamp weeklies.

We can, and we do feel proud of this monumental issue which is first a credit to the man most responsible for it, Mr. Jacques Minkus, of the Gimbel Stamp Department, a credit to our hobby for it can be shown to the scoffers, to that fellow who says, "Why spend your money on stamps?" Anyone who will see this issue of the Weekly should readily grasp the idea that Stamp Collecting is Big Business.

What daily newspaper has ever carried so many pages of paid advertising for any of the commodities which are ordinarily advertised in its pages, in fact what other trade journal of any nature has ever carried such a volume of paid advertising from a single patron, to advertise anything of any kind.

These facts should make every stamp collector proud that he is

a stamp collector and we are certain that thousands of our readers will show their appreciation of the great list of stamps offered by the Gimbel Department by writing Mr. Minkus and ordering their wants from this splendid list.

We are proud also because no other stamp publication in America could have handled this job in the short time that we have had to take it through the plant and put it in the mails.

Thus again Linn's Weekly Stamp News makes Philatelic History that every Philatelist can feel proud of too.

and here we find Baltimore. One mile west on the Canal settled some dissenters; this was Basil. Long since has the two places filled the gap 'til you can't tell where one ends and the other begins unless a native. Twenty-five years ago a consolidated school was erected and has run harmoniously ever since, but with political governments it was different. Although the ballot read that Baltimore annexed Basil, it was understood that the joint names would neither be Baltimore or Basil. The name as yet has not been chosen. The Fairfield Paper Co., manufacturers of corrugated paper boxes is the one industry chiefly supporting the community. Basil was the first to use precancels, and used a U-82 twentyfive subject rubber handstamp. One year at Xmas most values up to the 15c value wear precancelled. I have never seen any of these but a 10c 1926 issued is listed in the catalog, which I do not doubt but that it exists. Later this rubber handstamp was exchanged for a metal U-122 wide which also was a 25 subject plate. Baltimore was content to use printed paid permits of which there were several in the town at one time. Finally some one found out they could use precancels cheaper and a plate was ordered. It was a ten subject metal U-121 wide. There are no less than a dozen permit holders now in the town. Only the low values have been used. Suggested

"I have decided to sell my U. S. Stamps and so am sending them to you to put up at auction without reserve. I choose you among other auctioneers because I have found you one out of very few in that fraternity who give the purchaser a square deal, actually charging him (as all promise) only a small sum over the next highest bid. I am confident that you will get what my collection is worth, even if you don't rook some of the bidders."

## Souvenir Of First Fiji Stamp

We are indebted to Mr. Walter  
 E. Jarrett, of Alibene, Texas, for  
 the cover from which the above  
 illustration is made. To briefly  
 tell the story, we clip the follow-  
 ing from a letter from Mr. Jarrett.

Enclosed is a cover that may  
 be of interest to your readers.  
 They were sent by Mr. Ken R.  
 Sands, Suva, Fiji. November 1 was  
 the 75th anniversary of the first  
 stamps used in Fiji for postal  
 purposes. They were not a gov-  
 ernment issue but were printed  
 privately by the proprietor of the  
 "Fiji Times." Fiji did not become  
 a Crown Colony until it was ceded  
 to the British Empire on October  
 10, 1874. Prior to the issue of the  
 "Fiji Times" express stamp, mail  
 delivery was in the hands of the  
 American and, later, the British  
 Consul, and delivery was very  
 slow. It was for this reason that  
 the "Fiji Times" started a postal  
 service.

The Philatelic Society of Fiji  
 had endeavored to persuade the  
 government to commemorate in  
 some way, the issue of the first  
 stamps in 1870, but it was not  
 possible even to arrange for the  
 postal authorities to have a special  
 cancellation made therefor. The  
 nearest approach the Society could

get to an official recognition was  
 an envelope referring to the anni-  
 versary and depicting as near as  
 possible, a replica of the original  
 stamp. There are not a very large  
 number of these early stamps in  
 existence and, they were printed  
 on plain white paper in ordinary  
 printing ink. The envelopes were  
 printed for the Society by the  
 present "Fiji Times & Herald" of-  
 fice in Suva, which is a successor  
 to the original "Fiji Times" office  
 of Levuka which became the first  
 Capital of the Colony.

## MAKING PHILATELIC HISTORY

It is hardly necessary for me to again mention the 36 pages of solid advertising that is carried in this issue of the Weekly by the great Gimbels Stamp Department of New York City. I have tried to cover this story as thoroughly as possible in a front page article in this number and I am sure that it is deserving of such notice. Needless to say, when I wrote that article on Wednesday afternoon the complete story had not been told and if I should tell you how I spent my Thanksgiving day you might have a better appreciation of the job that has been before us. Yes, I worked all day Thanksgiving Day and up 'till near 10 o'clock at night in getting the final paged up proofs of this big piece of copy in shape to turn over to the printers. They are now busy with it and you have the finished job in your hands. This will stand for some time to come as a record in Philatelic advertising for any stamp publication in the world and is a fitting souvenir that should be kept as such. Thus, altho our Thanksgiving Day was one of toil and sweat, it is a day that we can be thankful for after all that is what Thanksgiving Day is, a day to give thanks for what has been so beautiful in the past.

## THE ROOSEVELT COLLECTION

Since our editorial of last week more news has come to hand concerning the Roosevelt collection and like so much news that comes from newspaper syndicates and the like sources, only part of the story was told.

We now have information that practically all of the gift material which is the "Philatelic" part of this collection, meaning the trial colors, proofs, essays and unissued material from foreign countries, is not to be included in the material that is to be sold.

It is also doubtful or rather not yet decided whether the imperforate sheets and parts of sheets and die proofs and other U. S. material of that nature will be included in the sold material. This was grave to President Roosevelt, from the Bureau of Engraving and Printing and certainly ought never to be let loose in the stamp market. This is more and more reason why our cataloguers ought to set a line somewhere for what they will include in a standard catalogue of postage stamps.

Let us hope that this later bit of news concerning this collection is true.

## Pan American Resumes Clipper Service From Hawaii To Frisco

Air mail covers carried from Hawaii to San Francisco or from Frisco to Honolulu on November 16, mark a milestone in airmail transport and likewise in an airmail cover collection for it is on this date that the regular pre-war service that was carried on by Pan American World Airways, was resumed.

War priorities are off in so far as this service is concerned and the first flight made on this date brings to the office of the weekly a cover from one of our staunch Hawaiian correspondents, Mr. Et-suo Sayama.

We are glad to illustrate this cover because of its splendid preparation and for the history making event it records. Very appropriately the cover bears stamps recently issued to honor our Marines, our Army and our Navy, the three great forces that have helped bring about this event so soon. Coast Guard stamps were not yet available in Hawaii or this stamp would also have been on the cover.

With the stamps is a clipping, tied to the cover by the corner of the Marines stamp which relates briefly the resumption of this service by commercial planes. Enclosed within the cover are newspaper clippings from Honolulu newspapers.

On the back of the cover is inscribed the fact that but two of these covers were mailed by Mr. Sayama, and the Editor of Linn's Weekly is proud of the fact that one of them came to this office.

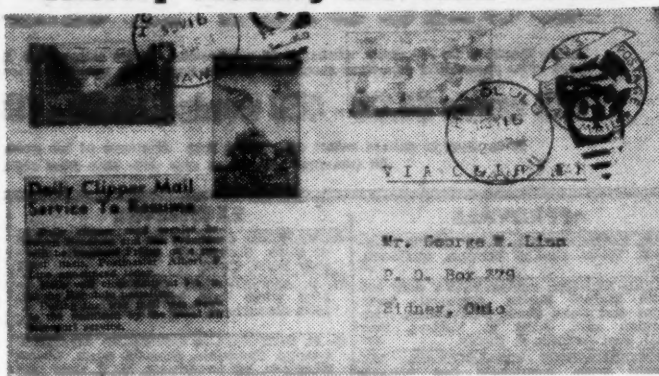

## EDISON PICTURE PROPOSED FOR STAMP

Charles F. Kettering, of General Motors, is head of a committee to celebrate the hundredth anniversary of the birth of Thomas

Edison ranks near the top of the list of American inventors, for whom a series of five stamps were issued. A stamp commemorating the 50th anniversary of the elec-

**The Bungled Globester Cover Milks Collectors For Community Chest**

It is stated that four thousand of the covers such as we illustrate were prepared and turned over to the Washington, D.C. Community Chest and were offered for sale at \$7.50 each, all the proceeds going to the Washington, D.C. Community Chest.

Surely a splendid bait for fish who buy such covers. Why give this fund to a local community chest. We have a community chest in our city, you probably have one in yours and should help your own, rather than that for Washington, D.C.

After all, the cover is a badly bungled job and we would lay even money that they will be plentiful in the market in future years at less than the first sale price. There just are not enough serious minded collectors to bite on a thing like this, at that price and keep it there. The only thing that will save it from the fate it deserves is holding by non philatelic buyers who will buy it for a souvenir.

To a real philatelist the cover is a laugh. It is not a piece of flown stamped mail as any cover should be. There is positively nothing about the cover to prove that it was ever on the Globester, let alone having been flown on a trip.

Who ever heard of air mail being carried for three cents, thus it is not an airmail cover but merely a souvenir as stated on the cover. There is ample evidence on the cover itself that it is not even a flown piece of mail. Mail to be carried by the government must have a postage stamp placed on the cover and canceled before it is given service in the mails. This cover may or may not have had the postage stamp on it when it was flown. The stamp could have been placed on later and canceled after the flight as the cover was canceled.

The flight left Washington on September 28, the stamp should have been canceled on that date, but we find it canceled after the ship had returned to Washington, thus giving us a backward souvenir that by all its earmarks is not a flown piece of mail but merely a souvenir with a postage stamp and cancellation on it that deserves no recognition in any

**TYPE BROKEN UP**  
Because of the war time shortage of printing metals the type used to produce the popular Thorpe edition of Bartels Catalog of U. S. Stamped Envelopes has been broken up. No new edition can be published. Only about two hundred copies now remain in the hands of the publisher and collectors or dealers expecting to add this authoritative book to their libraries should not delay placing their orders. Produced during the war the original printing of this important reference book was limited to only twenty-one hundred copies. It appears that it will shortly become a "premium" item. The catalog, in two handsomely cloth bound volumes, lists, illustrates and gives values for all U. S. Stamped Envelopes. Makes an excellent Christmas gift. Is available through your dealer or will be sent post free by the publisher. Price complete \$6.50. Published by P. H. Thorpe, Netcong, New Jersey. —Adv.

standard catalogue or list of air-mail covers.

These things, flights of this nature are usually bungled by inexperienced handling and that this cover was bungled is evident to anyone who will analyze it.

Mr. J. Minkus, of Gimbel's Stamp Department in New York, proposed carrying of covers on this flight and was told that none would be carried. Perhaps the statement is still correct for the cover bears no evidence that it was carried other than a printed statement on its face. We collectors like postmarks and postal markings. These covers should have been postmarked September 28, at Washington, D. C. and for the sake of absolute proof should have been taken off the plane at some point part way around the world and a foreign stamp and postmark or at least a foreign postmark stamped on the covers. We are indebted to Mr. M. A. Gantz, of Troy, Ohio, for loan of

**THE TIME HAS COME**

—for the cautious collector to start buying SOME of the 1940-45 issues of Europe. In the past 6 months you have seen all kinds of crazy prices. You've seen a set of Belgium tumble from \$60.00 catalog value to \$4.00! There are still plenty of these sets on which prices haven't yet settled down to earth. But there are a good number which have. These you will find listed here at very reasonable prices.

## Newspaper Editorial Flays Navy Stamp

The postal service didn't do very much of a job on that new 3-cent navy commemorative postage stamp. It takes close scrutiny to decipher what it is all about. With the aid of a magnifying glass one may discover the heads and faces of 11 white-clad tars, one of them partially hidden, together

with the mouth and chin of a thirteenth. The words "U. S. Navy" in small lettering in one corner are about the only indication of its significance. It is one of the least striking commemorative stamps issued in many years, which is a pity after the magnificent work of the navy in this war.

## BUREAU PRECANCEL STAMP ALBUM

Wide Defense - Narrow Defense - War Bureaus Three Series - Three Values

Both albums have spaces for all 411 bureaus issued in these three series. One album for singles only, the other for singles and blocks. Printed on 28 lb. ledger stock and bound in a rich dark brown cover, embossed in gold leaf, these albums are sturdily built and present a very attractive appearance. They are stubbed to prevent bulging when filled with stamps.

Photographic illustrations of the stamps are shown with a simple numbering system, to enable the most inexperienced collector to fill the spaces. This album is designed especially as an inducement to new bureau collectors. A list of all known varieties is given with space for mounting them. A brief history of bureau precancels is included, leading up to World War II, the incident directly responsible for the printing of these stamps. Also included are pictures of the original Big Three—Roosevelt, Churchill and Stalin, those three great wartime leaders who were so prominent in our victory over the Axis powers. This album will give you a valuable, lasting souvenir of those most historical years.

CONSOLATION OF THE AFFLICTED

During 1945, Luxembourg (since its liberation) has bought out several stamps to honor the Madonna and Child. Gimbels Famous Stamp Departments are happy to be able to offer these items to embellish your album pages.

50Fr.+50Fr. souvenir sheet. Beautiful in its simplicity and its beauty—the large-sized stamp being centered in a small plain souvenir sheet. The design portrays the Madonna and Child in gorgeous attire, with church steeples as a background. 3.50

### Gimbels Stamp Department A National Institution

Gimbels has a lot in common with the Post Office Department. Both have long served the public in the same down-to-earth manner. Your postman delivers the goods. The Post-Office Department believes in service (things like two mail deliveries a day); it believes in giving value (where could you buy more for 3c?)

Gimbels delivers the goods, too. Out in Vincennes, Indiana, five years BEFORE the U. S. Government issued its first regular postage stamps, Adam Gimbels opened up a store. The same sound business principles that the Post Office is famous for—service and economy—have marked the rise of Gimbels Department Stores, since that time 103 years ago. You've just got to be good to live to be 103 years old. Gimbels may be old in years but quick-on-the-trigger for new ideas and thinking. Fourteen years ago, who ever thought a stamp department could be so important? Gimbels did, and now THE STAMP DEPARTMENT IS A NATIONAL INSTITUTION. In fact it's the World's Largest Stamp Department. Philatelists from all over the world come in to add stamps to their present collections, talk stamps, or just to browse around.

And now in the Stamp Department, something new has been added—\*COINS. So far as we know, Gimbels is the only department store in the whole United States to have a coin department. Our coin cases are as loaded with treasure as a pirate's cave. You'll find all sorts of collectors' pieces, such as the beaten iron gizi pennies, 18 inches long (12 will buy you a wife in Sierra Leone!) You'll find exquisite Chinese money dating back to the Han Dynasty, or Fiji Island whale tooth money. You'll find money made of bamboo, stone, gold, silver, even petrified wood and, of course, even coins that will cost you only a few cents. Collector or not, you'll enjoy looking them over.

Naturally, with collectors scattered all over the country, many of you won't get a chance to see our wonderful stamp display and coin collection. That's why we're sending you this Journal.

Of course, we couldn't list all of our thousands and thousands of single stamps and stamp sets. If the stamps and coins you want are not included, see the page regarding our "want list service." We've also made special arrangements for getting you new issues.

Gimbels Stamp Department has representatives all over the world picking up new issues, discovering old or rare stamps and coins. Send us your lists, you'll hear from us promptly.

\*For the present, coins are on sale at our New York department only.

## FAMOUS AMERICANS ALBUM

Text by

FRANKLIN R. BRUNS, Jr.  
Stamp Editor, New York Sun

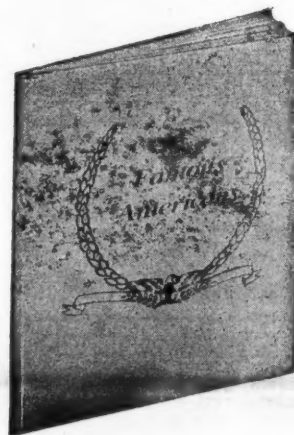

Illustrations by

Capt. EDWIN N. HOMER (U.S.A.)

Here is one of the few exceptions to the claimed rule that U. S. stamps drop in popularity shortly after issuance, and revive a number of years later. These stamps have been popular since the dates of issuance, with a wide following among those interested in Americana.

Gimbels Stamp Departments foresaw the appeal these stamps would have and had this beautiful album prepared. Each of the 35 pages has the portrait of one of the honored authors, poets, educators, scientists, composers, artists or inventors, along with a brief biographical sketch and spaces for a single and a block of four.

Bound Volume, 35 pages, companion to Gimbels Pan American Album ..... \$1.00

## ROOSEVELT MEMORIAL ALBUM

Gimbels Stamp Department is proud to announce that there is now in preparation a beautiful stamp album, edited by A. S. Arnold, noted philatelic writer, built about the life and the stamp collecting interests of our great deceased president.

Franklin Delano Roosevelt, in addition to being a great leader and statesman, was truly America's No. 1 stamp collector. His interest in this hobby manifests itself in many ways, and news reports frequently mentioned his finding of relaxation in trying moments with his loved stamps.

This album will provide spaces for all of the stamps issued by this country and other nations of the world in his honor.

Gimbels Stamp Departments will accept reservations now, filling them in order of receipt.

## PROFIT IN POSTAGE STAMPS

By Thomas Young

Extensive research into the price fluctuations of the past four decades are used as the basis for this book—unusual in that it is one of the few serious approaches made to the ticklish problem of investment possibilities in stamps. The studies have been confined to mint United States stamps of the 20th century.

The nature of philatelic investment, regular issues versus commemoratives, high values as compared to low values and the wartime "boom" and the future are among the important points covered. All collectors interested in the monetary aspects of stamp collecting should have this book, priced at.....\$1.50

## A HIGHWAY INTO STAMP COLLECTING

Few men have a broader knowledge of stamps than does Stephen G. Rich, nor are there many fortunate enough to possess his knowledge of the printing and educational fields. Mr. Rich has taken questions collectors have asked him as the basis, and has built this 92-page booklet about those needs.

From the start of the collecting impulse, the novice is taken through the obtaining of stamps, handling them properly, mounting, specialization, use of the catalogue, stamp identification, exhibiting, affiliated books, journals and societies, and the financial aspect of the hobby. This guide is an excellent investment in itself at.....50 cents

PACKETS BY COUNTRIES

Time has not diminished the value of good stamp packets—rather conditions today are such that packets are difficult to secure. Gimbels Stamp Department is proud to be able to offer a list such as this, but cannot undertake to promise that all items will remain available for any definite length of time. Replacements are not easy to get. Order the largest packet you can afford (you fill more spaces that way at a very low cost). Any duplicates you have will make wonderful swapping material or will be treasured by less advanced collector friends. Packets listed here are only a portion of those in Gimbels Famous Stamp Department's stock.

UNITED STATES SHEETS

Gimbels Stamp Departments are proud to be able to offer an excellent range of mint United States sheets. While the following listing represents only a part of Gimbels stock, it must be remembered that, in some instances, there is but one sheet of a kind and requests must necessarily be filled in the order received.

These sheets are all unused, with full gum, and intact with plate numbers (and imprint, in the case of early sheets) as issued by the post office.

## COLLECTIONS

Gimbels Stamp Departments maintain a service not known, perhaps, to our many friends. We frequently secure specialized and general collections and turn them over promptly on a "First come, first served" basis.

We list here a few of the recent acquisitions, and urge you to look over future material, or, if this is not possible because of distance, to let us know your interests. Then, when something we feel would be of interest to you is secured, we can let you know the details immediately.

Gimbels Stamp Departments offer the following representative collections, subject to prior sale:

**CIVIL WAR PATRIOTIC COVERS**—A collection of about 60 unused Civil War patriotic envelopes, some honoring states remaining loyal; some naming disloyal states, and others featuring Union leaders and military or domestic scenes. Supplementing this historic material are ten Magnus song sheets, illustrated in colors, with the lyrics of songs then popular among the soldiers, and, a Magnus letter sheet. Beautiful material with tremendous popular interest value .....\$25.00

**BELGIUM, NETHERLANDS, LUXEMBOURG AND BRITISH COLONIES**—Housed in a Specialty binder. The Belgian portion has quite a few of the early issues and several of the popular pictorial and semi-postal sets, mint and used. There are several of the Luxembourg semi-postal sets, also, complete. Stamps of the Netherlands are stronger, particularly the earlier issues—a condition true also with Curacao, Dutch Indies and Surinam. The British Colonies in America best represented are Barbados, Canada and Newfoundland. A good collection to be used as the basis for a novice. Total catalogue \$185. Net .....\$125.00

**MEDICAL STAMPS**—A collection of stamps devoted to hospitals and physicians on stamps, housed in a black three-ring binder. The various medical figures are named, and the stamps include the physicians' sets of Austria and Danzig. Hospitals are included, and there are several pages (with quite a few complete sets) devoted to the Red Cross and Tuberculosis drives. A very interesting collection, ripe for continuation. Catalogue value over \$145.00. ....\$125.00

**FRANCE**—A collection covering the period from 1870 to 1939, in a three-ring binder, Thorp and Martin printed pages. Includes the Decorative Arts set of 1925, American Legion issue and many beautiful commemoratives, mint, such as the 50Fr. Ader; 3, 5, 10 and 20Fr. pictorials, and the Mercury postage set of 1938-9. (Cat. val. over \$130.00) .....\$95.00

**SPAIN AND CUBA**—Mounted on Scott Specialty pages. Spain strongest in the issues from 1930, including the mint Goya set, Columbus issue to 50c. Ibero-americana issue of 1930 to 1P. and "Pro Fide" set of bicolours to the 55c. The Cuba pages bear a number of the early stamps issued under Spanish rule. Net only .....\$12.00

## CORONATION STAMPS

Shortly after the Silver Jubilee of King George V, Britain's monarch was taken in death, and succeeded for a brief spell by his eldest son—the Prince of Wales—who was named Edward VIII. Before the coronation ceremonies King Edward VIII renounced his throne so that he might marry an American woman. Thus the rule of an empire passed to his brother who became King George VI. To overcome any possible hostility it was decided to issue a short set of stamps for every Dominion and Crown Colony marking the Coronation ceremonies which were held in 1937.

Gimbels Famous Stamp Departments are able to offer the complete mint set of these coronation stamps, in singles for.....\$15.00  
 The same, but in blocks of four.....\$60.00

COINS OF THE WORLD

A LASTING GIFT?

What can be more lasting than that which has lasted longest?

Money has been used in one form or another as far back as we can go. Gimbels new Coin Collectors Department in New York offers many varieties of odd-and-curious monies, many ancient coins and many modern coins. You may make your son, or daughter happy with an ancient coin, 2000 years old and guaranteed genuine for as low as \$1.00. He can spend many happy hours learning about Nero or Hadrian or Caesar in his research. Or perhaps a recent half dollar issued in 1926 to commemorate the Sesquicentennial of American Independence and costing only \$2.50 would arouse an interest in the American Revolution and the History of our country.

Dad or Mother might want a complete collection of such Commemorative Half Dollars mounted in a National Coin Album which permits perfect visibility of all coins without handling. Such a set is comprised of 111 different issues and is priced at \$950.00. A type set of 45 varieties including all changes of design can be obtained in a special National Coin Album for \$270.00.

Our main floor exhibit displays coins of the United States and foreign lands in copper, nickel, silver, gold and platinum as well as paper, and odd-and-curious monies. Why not pay us a visit?

Until you can come over, perhaps you would like to order some interesting low-priced items.

NOTE: For the present, coins are on sale only in our New York department.

## WANT LIST SERVICE

Do you have any gaps in your collections you often wish you could fill, but never seem to find time to scout around for, or perhaps just haven't been able to locate? That's not unusual—there are many low and high priced stamps which are very difficult to find.

Why not let Gimbels Stamp Department—with its affinity for service and its tremendous contacts—assume this headache for you—at no increased cost. We will dig into our sources of supply if we ourselves shouldn't, have what you want and will send you the stamps as we get them. You can be sure that if Gimbels can't get the stamps, they're pretty tough items to find. And, what is very important, Gimbels does not add any "search" fees to your bill—the charge is in plain market figures.

Just let us have your list of needed stamps and sets (or even collections) stating only whether you want them mint or used, and tell us what catalogue and year you are using so that we can watch out for any of the hundreds of catalogue number changes made in the last few years. Our only requirement is that the stamp want list must have a minimum catalogue price of \$3.00.

When sending your first list, please fill out the reference blank. Of course, if you already have an account with Gimbels, just say "charge it."

## GIMBELS PATRIOTIC ENVELOPES

After the Civil War, and the Spanish American War, little interest was paid to the wonderful patriotic envelopes produced to stimulate a people at war. During the war so gloriously completed, Gimbels as one of its many contributions to the war effort, brought out three series of patriotic envelopes (with matching stationery).

The first series, now obsolete and a prized collector's item, was built about the rallying of a people, united in war, towards the tremendous tasks still ahead. The second and third sets, each in 20 designs, stressed the theme of ultimate victory over our three major enemies.

Don't allow yourself to be one of the many who, in a few short years, will be searching for some of the stirring patriotic envelopes (and letter sheets) of World War II. Order a set of each now so that YOU'LL have them at present-day low prices. These blazing colored envelopes and letter sheets, rivaling the best of the Civil War covers and the famed Magnus letter sheets of the same era, will make a wonderful nucleus for your future collection.
